

client/func_for_client.h

```
graph TD; A[client/func_for_client.h] --> B[QString]; A --> C[QMessageBox];
```

A diagram illustrating a C++ header file's dependencies. At the top, a dark gray box contains the text 'client/func_for_client.h'. Two blue arrows originate from the bottom edge of this box. The left arrow points to a light gray box labeled 'QString'. The right arrow points to a light gray box labeled 'QMessageBox'. This indicates that the header file 'client/func_for_client.h' includes or uses both 'QString' and 'QMessageBox'.

QString

QMessageBox
